

Bautista Zitelli

Full stack developer

Paraná - Entre Ríos, Argentina | (+54) 343 5171267 | bautista.zitelli11@gmail.com
www.linkedin.com/in/bautistazitelli - github.com/Bautizitelli

Full Stack Developer with a strong foundation, specializing in Front End and experienced in Back End using technologies such as React, Node, Express, and Sequelize. My approach is centered around teamwork, adaptability, and efficient time management, coupled with technical skills in agile methodologies, GIT, data structures, and CSS frameworks. Additionally, I possess interpersonal skills, including effective communication, emotional intelligence, and problem-solving abilities. My English proficiency is certified at the C1 Advanced level. I am excited about the opportunity to contribute to innovative projects and continue growing as a professional in the web development world.

MY PROJECTS

Full Stack Web Developer - Henry's group final project

ago. 2023 - sep. 2023

Educational Experience. Henry Bootcamp

Complete application for a supermarket e-commerce platform

Front-end Design and Styles: Contributed to the development of user interface design and styles, ensuring an attractive and consistent visual experience across the platform.

Discount Logic Implementation: Created and applied comprehensive logic to calculate and display product discounts, enhancing the platform's appeal to customers.

Administrator Dashboard Development: Contributed to creating a section of the administrator dashboard, providing tools to efficiently manage products, orders, and users.

Shopping and Comments Component: Designed and developed the component displaying user purchases, allowing users to submit comments and opinions on purchased products, encouraging customer interaction and feedback.

User Experience Optimization: Worked on continuously improving the user experience by implementing solutions and adjustments in the front-end to ensure smooth and seamless navigation for end users.

Frontend: React, Redux, React Admin, Bootstrap

Backend: NodeJS, Express, Nodemailer

Database: PostgreSQL and Sequelize.

Backend repository: <https://github.com/alemannn/Super-market-shop>

PROFESSIONAL EXPERIENCE

Front End Web Developer - URVIG's WEB PAGE

abr. 2024 - may. 2024

URVIG S.R.L.

Creation of a website for the company Urvig S.R.L. This platform allows users to access detailed information about the company, from its history to the products and services offered.

During the development of this project, I applied my skills in technologies such as React, JavaScript, CSS, and Tailwind CSS to style the website.

I highlight that the design of the website is fully adaptable, ensuring an optimal experience for users on different devices. I also deployed the website, ensuring it is available to all users.

This project represented an opportunity to tackle technical challenges and produce a satisfactory final result.

Website link: www.urvig.com.ar/

Repository: <https://github.com/Bautizitelli/Urvig>

TECHNOLOGIES:

Programming Languages: JavaScript, HTML, CSS.

Frameworks: Bootstrap, TailwindCSS, React, Redux, Express, Node.js, Sequelize.

Databases: PostgreSQL, MongoDB

Tools: Git Flow, Slack. Agile: Scrum.
